

# Bartosz Zagozdon

DevOps Engineer · Kołobrzeg, Poland

[bart.zagozdon@gmail.com](mailto:bart.zagozdon@gmail.com)   [github.com/b-zago](https://github.com/b-zago)

## PROFESSIONAL SUMMARY

---

DevOps engineer running a self-managed Kubernetes cluster with GitOps-driven deployments. Professionally, I maintain and deploy websites for clients; as a hobby I build full-stack applications so that my infrastructure has something to run.

## TECHNICAL SKILLS

---

Infrastructure & DevOps	Kubernetes, Docker, ArgoCD, Helm, GitHub Actions
Development	Python, Node.js, React
Tools & Platforms	Git, Linux, WordPress

## PROFESSIONAL EXPERIENCE

---

**Web Specialist** Apr 2024 – Present

[Internet Plus](#) | Remote

- Deploying and maintaining client websites across multiple production environments.
- Setting up automated WordPress deployment to support team testing workflows.
- Diagnosing and resolving production website issues.
- Performing site modifications including page rebuilds and third-party integrations.

**IT Intern** Feb 2020 – Mar 2020

[DiskON](#) | Kołobrzeg, Poland

- Assessed and configured end-user hardware to match client requirements.
- Performed OS reinstallation, driver troubleshooting, and performance optimisation.
- Diagnosed and repaired hardware faults in laptops and desktops.

## PROJECTS

---

See full project list at [zagoapps.com/#projects](https://zagoapps.com/#projects)

## EDUCATION & CERTIFICATIONS

---

**B.Eng in Computer Science** Oct 2023 – Feb 2027

[Koszalin University of Technology](#)

- Developing skills in software engineering, systems programming, and networking.
- Applying academic knowledge through hands-on projects in web development and server configuration.

**IT Technician — Vocational Diploma** 2020 – 2024

[Technical Vocational School No. 2, Kołobrzeg](#)

- HTML, CSS, JavaScript, PHP, MySQL, C++, and computer networking fundamentals.
- Passed the EE.09 national IT certification — 100% score on the practical exam.

## LANGUAGES
